OUR HISTORY

What began as a small family project has become a company specializing in the design and manufacture of insoles for all kinds of needs.

Over the years, we have adapted to changes in the sector by incorporating new materials, technologies and processes, without losing our identity: closeness, commitment and in-house manufacturing.

TRADITION, INNOVATION AND WELL-BEING SINCE 1983

At Rogelio Inés, we have been dedicated for over 40 years to the development and manufacture of insoles that improve everyday well-being. We were founded in Illueca (Zaragoza), one of the cradles of footwear in Spain, as a project based on artisanal knowledge and a passion for doing things right.

Since our beginnings, we have evolved while maintaining our essence: taking care of every detail of the product to offer comfort, quality and durability.

“We work to improve people’s quality of life through foot comfort, developing products that provide well-being, hygiene and functionality with every step.”

OUR VALUES

QUALITY

We control the entire manufacturing process to guarantee optimal results.

CLOSENESS

We listen to our customers to offer tailored solutions

INNOVATION

We collaborate with technology centers to continuously improve our products

EXPERIENCE

More than four decades in the sector support us

SUSTAINABILITY

We are committed to natural materials and environmentally friendly processes

SALE FOR PROFESSIONALS

- ✓ Flexible and customized manufacturing
- ✓ Private label and private label brands
- ✓ Premium materials and current technology
- ✓ Exclusive packaging, design, and finishes
- ✓ Reliable supplier for large volumes

Customers:

- Distributors
- Wholesalers
- Retail
- OEM

Private labels:

Footsanit

Footsanit Ecologic

Neutrolor

Your brand, our manufacturing.

We develop fully customized products to market under your corporate identity.

Your trusted partner

We work closely with each client to offer effective solutions tailored to their market and business objectives.

If you are looking for a manufacturer that allows you to launch products under your brand and stand out, at Plantillas Rogelio

Inés you will find a solid, approachable and experienced partner.

BASIC RANGE

Ref. 103 – Activated Carbon Insole

Surface: Absorbent, soft, and cool fabric.
Protection: Sanitized® antibacterial and antifungal with activated carbon.
Base: High-density, breathable, non-slip, and shock-absorbing SBR foam.

Sizes: 34–47 and trimmable.

Properties:

-  Antibacterial
-  Cool
-  Cushioning
-  Non-slip

Ref. 106 DE – Breathable Insole with Activated Carbon

Surface: Soft, absorbent terry cloth, soft and cool.
Protection: Activated carbon, regulates perspiration and odor.
Base: High-density SBR foam, breathable and cushioning.

Sizes: 34–47 and trimmable.

Properties:

-  Cool
-  Cushioning
-  Breathable

Ref. 115 CF – Aromatic Absorbent Insole

Surface: Soft, absorbent, cool terry cloth.
Base: High-density, breathable, non-slip, shock-absorbing SBR foam.

Sizes: 34–47

Properties:

-  Cool
-  Cushioning
-  Non-slip

Ref. 104 – Absorbent Insole with Sanitized® Treatment

Surface: Absorbent, soft, and cool fabric.
Protection: Sanitized® antibacterial and antifungal.
Base: High-density, breathable, and shock-absorbing SBR foam.

Sizes: 34–47 and trimmable.

Properties:

-  Antibacterial
-  Cool
-  Cushioning
-  Breathable

Ref. 111 – Absorbent Scented Insole with Non-Slip Base

Surface: Soft and cool scented absorbent fabric.
Base: High-density, breathable, non-slip, and shock-absorbing SBR foam.

Sizes: 34–47 and trimmable.

Properties:

-  Cool
-  Cushioning
-  Non-slip
-  Breathable

Ref. 175 – Breathable Insole with Double-Layer Mesh and Activated Carbon

Surface: Soft and cool double-sided mesh.
Protection: Activated carbon.
Base: Breathable, sweat-absorbing felt.

Sizes: 34–47

Properties:

-  Cool
-  Cushioning
-  Non-slip
-  Breathable

BASIC RANGE

Ref. 129 Basic – Absorbent Technical Insole with Sanitized® Treatment

Surface: Soft, cool, absorbent technical fabric.
Protection: Sanitized® antibacterial and antifungal.
Base: High-density, breathable, non-slip, and shock-absorbing SBR foam.

Sizes: 34–47 and trimmable.

Properties:

-  Antibacterial
-  Cool
-  Cushioning
-  Non-slip

Ref. 820A – Bamboo Curl Insole with Natural Coconut Fiber Base

Surface: Absorbent, soft, and cool bamboo terry cloth.
Protection: Antibacterial properties.
Base: Natural coconut fiber with a cushioned foam layer, breathable and durable.

Sizes: 34–47

Properties:

-  Antibacterial
-  Cool
-  Cushioning
-  Breathable

Ref. 136 – Insole with Special Braiding and Antibacterial Felt Base

Surface: Special braided fabric with raised texture, soft and comfortable.
Protection: Antifungal and antibacterial treatment.
Base: Non-slip felt, hygienic and comfortable.

Sizes: 34–47

Properties:

-  Antibacterial
-  Cool
-  Cushioning
-  Non-slip

Ref. 137 – Absorbent Insole with Scented Cloud Print

Surface: Soft and cool scented absorbent fabric with cloud print.
Base: High-density, breathable, non-slip, and shock-absorbing SBR foam.

Sizes: 34–47 and trimmable.

Properties:

-  Cool
-  Cushioning
-  Non-slip
-  Breathable

Ref. 871 – Aloe Vera and Activated Charcoal Insole

Surface: Fabric with Aloe Vera, cool and soothing.
Protection: Hygienic, soothing and regenerative properties.
Base: SBR foam with activated carbon, cushioning and odor neutralizing.

Sizes: 35–46

Properties:

-  Comfort
-  Breathable
-  Hygienic
-  Odor-resistant

LEATHER RANGE

Ref. 118/31 – Black Leather Insole

Surface: Soft, absorbent sheepskin.
Protection: SANITIZED® antibacterial and antifungal treatment.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 34/35–46/47

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Antibacterial
- 👉 Non-slip

Ref. 119/7 – Insole Suede

Surface: Cowhide suede, absorbent and non-slip.
Protection: Natural thermal insulation (cork).
Base: Natural cork, thermal insulator.

Sizes: 34–47 (available in grey Ref. 119/8)

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Insulating

Ref. 120 12/B – Leather Insole

Surface: Genuine vegetable-tanned leather, absorbent and hypoallergenic.
Protection: Natural hypoallergenic properties.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 34/35–46/47

Properties:

- 👉 Comfortable
- 👉 Breathable
- 👉 Hypoallergenic

Ref. 139 RC/12 B – Cut-to-Size Leather Insole

Surface: Genuine vegetable-tanned leather, absorbent and hypoallergenic.
Protection: Natural hypoallergenic properties.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 34/35–46/47

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Insulating

Ref. 221-5X – Triple Layer Lambskin Leather Insole

Surface: Soft and breathable vegetable-tanned lambskin.
Base: Shock-absorbing and durable dual-density SBR foam.

Sizes: 35–46

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Stability
- 👉 Durable

COMFORT RANGE

Ref. 97/48AA – Anatomical Leather Insole with Cushion

Surface: Genuine sheepskin, soft and comfortable.
Protection: Anatomical arch support. Metatarsal and heel protection.
Base: High-density SBR foam with anti-slip texture and viscoelastic heel cushion.

Sizes: 35/36 – 51/52

Properties:

- 👉 Comfort
- 🛡️ Arch and heel protection
- 🌬️ Breathable
- 🚫 Non-slip

Ref. 102 – Anatomical Suede Insole

Surface: Soft and comfortable cowhide suede.
Protection: Arch and heel protection.
Base: High-density SBR foam with anti-slip texture and activated carbon.

Sizes: 36/37– 46/47

Properties:

- 👉 Comfort
- 🛡️ Arch and heel protection
- 🌬️ Breathable
- 🚫 Non-slip

Ref. 133 – Anatomical Sports Insole

Surface: Soft, absorbent and comfortable terry cloth.
Base: SBR foam with activated carbon and insulating polyethylene base.

Sizes: 35–46

Properties:

- 👉 Comfort
- 🌬️ Breathable
- 🚫 Non-slip

Ref. 140/12A – Ergonomic Insole

Surface: Genuine vegetable-tanned leather, soft and comfortable.
Protection: Metatarsal, heel, and arch protection.
Base: High-density SBR foam with anti-slip texture and activated carbon.

Sizes: 34–47

Properties:

- 👉 Comfort
- 🌬️ Breathable
- 🛡️ Metatarsal, heel and arch protection
- 🚫 Non-slip

Ref. 141B – Anatomical Insole for Tired Feet

Surface: Soft and cool double-layered mesh.
Protection: Arch support, metatarsal and heel protection.
Base: High-density SBR foam with anti-slip texture.

Sizes: 35–47

Properties:

- 👉 Comfort
- 🌬️ Breathable
- 🛡️ Metatarsal and heel protection
- 🚫 Non-slip

Ref. 142/12C – Venus Anatomical Insole

Surface: Premium vegetable-tanned leather, soft and comfortable.
Protection: Arch support, metatarsal and heel protection.
IBase: Felt with activated carbon infill.

Sizes: 34–47

Properties:

- 👉 Comfort
- 🌬️ Breathable
- 🛡️ Metatarsal and heel protection
- 🚫 Non-slip

COMFORT RANGE

Ref. 143-820A – Anatomical Insole

Surface: Soft, absorbent, and antibacterial bamboo terry cloth.
Protection: Arch support. Metatarsal and heel protection. Antibacterial properties.
Base: Natural coconut fiber.

Sizes: 35–47

Properties:

-  Comfort
-  Breathable
-  Antibacterial
-  Cool

Ref. 146/12 – Anatomical Insole

Surface: Genuine vegetable-tanned leather, absorbent and hypoallergenic.
Protection: Natural hypoallergenic properties.
Base: Breathable, soft, molded SBR foam.

Sizes: 35–47

Properties:

-  Comfort
-  Breathable
-  Hypoallergenic

Ref. 314/12 – Physiological Insole with Metatarsal Elevation

Surface: Genuine vegetable-tanned leather, soft and comfortable.
Protection: Metatarsal protection.
Base: Breathable, non-slip, and shock-absorbing SBR foam.

Sizes: 35–43

Properties:

-  Comfort
-  Breathable
-  Non-slip

Ref. 352/12 – Anatomical Half Insole

Surface: Premium vegetable-tanned leather, soft and comfortable.
Protection: Arch support. Metatarsal and heel protection.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 35–46

Properties:

-  Comfort
-  Breathable
-  Non-slip
-  Cushioning

Ref. 362/12 – Anatomical Half Insole

Surface: Premium vegetable-tanned, absorbent, and antifungal leather.
Protection: Arch support, metatarsal and heel protection.
Base: Breathable, plush, molded SBR foam with activated carbon.

Sizes: 35/36–45/46

Properties:

-  Comfort
-  Breathable
-  Non-slip

Ref. 329 – FEMM STEP Insole

Surface: Soft and comfortable microfiber.
Protection: Metatarsal protection. Recommended for high heels.
Base: Internal structure that distributes pressure.

Sizes: 35–46

Properties:

-  Comfort
-  Breathable
-  Non-slip

COMFORT RANGE

Ref. 210-115 – Dual-density Anatomical Insole

Surface: Perforated, breathable, and durable microfiber.
Protection: Arch support thanks to its anatomical shape.
Base: Dual-density, shock-absorbing, and stable polyurethane.

Sizes: 35–46

Properties:

- 👉 Comfort
- 👉 Breathable
- 🛡️ Stability
- 🔨 Durable

Ref. 870 – Triple Layer Insole

Surface: Soft and breathable cotton terry cloth.
Base: Triple-layer viscoelastic SBR foam, shock-absorbing and stable.

Sizes: 35–46

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Cushioning

COMFORT RANGE

Ref. 97 – Anatomical Insole

Surface: Soft and comfortable, next-generation absorbent fabric.
Protection: Anatomical support for the internal longitudinal arch and greater heel stability.
Base: High-density, breathable gel foam with anatomical support and viscoelastic heel pad.

Sizes: 36/37–52

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Anatomical support
- 👉 Memory effect

Ref. 196 – Sports Insole

Surface: Abrasion-resistant technical fabric with Sanitized® treatment. Protection: Sanitized® antibacterial and antifungal treatment.
Base: Open-cell polyurethane with gelled latex insert and viscoelastic heel cushioning.

Sizes: 34–47

Properties:

- 👉 Comfort
- 👉 Breathable
- 👉 Antibacterial
- 👉 Impact cushioning

BASIC ACCESSORIES

Ref. 315 – Semi-Insole for Narrow Instep

Surface: Soft and cool scented absorbent fabric.
Protection: Scented properties.
Base: High-density, breathable, and shock-absorbing SBR foam.

Sizes: 35/36–45/46

Properties:

- ❄️ Cool
- 👉 Cushioning
- 🌀 Breathable

Ref. 317 – Plantar Pad

Surface: Absorbent, soft and cool fabric.
Protection: Plantar protection against calluses.
Base: High-density, breathable and shock-absorbing SBR foam.

Sizes: One size

Properties:

- ❄️ Cool
- 👉 Cushioning
- 🌀 Breathable

Ref. 368 – Microfiber Metatarsal Pad

Surface: Soft and comfortable microfiber.
Protection: Metatarsal pressure protection.
Base: Soft, breathable, molded SBR foam.

Sizes: One size

Properties:

- 👉 Comfort
- 🌀 Breathable
- 🚫 Non-slip

Ref. 607-44 – Suede Metatarsal Pad

Surface: Soft and comfortable cowhide suede.
Protection: Metatarsal protection.
Base: Soft, breathable, molded SBR foam.

Sizes: One size

Properties:

- 👉 Comfort
- 🌀 Breathable

LEATHER ACCESSORIES

Ref. 308/1A – Heel Protector

Surface: Soft and durable cowhide suede.
Protection: Anti-chafing in the heel area.
Base: SBR foam with self-adhesive backing.

Sizes: One size (available in brown 308/1A 7 and black 308/1A 58)

Properties:

- 👣 Comfort
- 🚫 Anti-chafing
- 🛡️ Protection

Ref. 312/12 – Non-slip Toe Cap

Surface: Soft, absorbent, vegetable-tanned genuine leather.
Protection: Forefoot support and slip prevention.
Base: Molded, breathable SBR foam.

Sizes: One size

Properties:

- 👣 Comfort
- 🚫 Non-slip
- 🌬️ Breathable

Ref. 357/8 – Heel Plasters

Surface: Soft and discreet cowhide suede.
Protection: Heel support and prevention of foot slippage.
Base: Self-adhesive backing.

Sizes: One size

Properties:

- 👣 Comfort
- 🚫 Non-slip
- 🛡️ Support

COMFORT ACCESSORIES

Ref. 379 – Tongue Pad

Surface: Leather for cattle, soft and resistant.
Protection: Protects the core against pressure from laces and helps prevent chafing and discomfort
Base: SBR foam with self-adhesive support for easy and quick placement on the back of the tongue

Sizes: One size

Properties:

- 👉 Comfort
- 👉 Better fit
- 👉 Greater grip
- 👉 Easy to apply
- 👉 Discreet and practical

COMFORT ACCESSORIES

Ref. 300/12 – Heel Lift

Surface: Genuine vegetable-tanned leather, soft and comfortable.
Protection: Support and relief for the Achilles tendon.
Slight height adjustment.
Base: Mossy, non-slip, and shock-absorbing rubber.

Sizes: 1, 2, 3, 4 (self-adhesive)

Properties:

- 👉 Comfort
- 🛡️ Support
- 🌀 Breathable

Ref. 316/12 – Mini Metatarsal Insole

Surface: Genuine vegetable-tanned leather, soft and comfortable.
Protection: Metatarsal protection.
Base: Breathable SBR foam and embossed SBR foam, shock-absorbing.

Sizes: One size

Properties:

- 👉 Comfort
- 🌀 Breathable

Ref. 319/5– Metatarsal Lift

Surface: Genuine leather, soft and comfortable.
Protection: Transverse arch support.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 1, 2, 3

Properties:

- 👉 Comfort
- 🌀 Breathable
- 🚫 Non-slip

Ref. 322/5 – Metatarsal Lift

Surface: Genuine, soft, and comfortable leather.
Protection: Forefoot load redistribution.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 1, 2, 3, 4

Properties:

- 👉 Comfort
- 🌀 Breathable
- 🚫 Non-slip

COMFORT ACCESSORIES

Ref. 324/12 – Plantar Arch

Surface: Genuine vegetable-tanned leather, soft and absorbent.
Protection: Arch support and pronation correction.
Base: Anatomical, shock-absorbing rubber.

Sizes: 1, 2, 3, 4

Properties:

- 👉 Comfort
- 👉 Breathable
- 🚫 Non-slip

Ref. 327/12 – Semi-Insole Forefoot

Surface: Genuine vegetable-tanned leather, soft and absorbent.
Protection: Metatarsal protection.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 35/36, 37/38, 39/40, 41/42

Properties:

- 👉 Comfort
- 👉 Breathable
- 🚫 Non-slip

Ref. 335/12 – Anti-Spur Lift

Surface: Genuine vegetable-tanned leather, soft and absorbent.
Protection: Pressure relief on heel spurs.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 1, 2, 3

Properties:

- 👉 Comfort
- 👉 Breathable

Ref. 341/12 – Physiological Metatarsal Insole

Surface: Genuine vegetable-tanned leather, soft and absorbent.
Protection: Metatarsal protection.
Base: Breathable, shock-absorbing SBR foam.

Sizes: 34–42

Properties:

- 👉 Comfort
- 👉 Breathable

COMFORT ACCESSORIES

Ref. 369 – Heel Lift

Surface: Genuine leather, soft and durable.
Protection: Reduces chafing on ankles and improves comfort during use. Base: High-strength, stable and durable polyurethane.

Sizes: Five heights (10 mm, 15 mm, 20 mm, 25 mm and 30 mm), width for ladies and gentlemen

Properties:

- 👣 Comfort
- ⬆ Elevation
- 🛡 Durable

GEL RANGE

Ref. 606/43 – Mini Gel Lined Insoles

Surface: Soft and comfortable textile lining.
Protection: Metatarsal protection.
Base: Adhesive, flexible, and shock-absorbing gel.

Sizes: One size

Properties:

- 👣 Comfort
- 🛡️ Metatarsal protection
- 🚫 Non-slip
- ♻️ Washable

Ref. 632 – Cuttable Tube of Protective Gel

Surface: Flexible, soft and adaptable gel.
Protection: Digital protection against friction and overpressure.
Base: Cuttable, protective technical gel.

Sizes: One size

Properties:

- 👣 Comfort
- 🛡️ Digital protection
- ✂️ Trimmable
- 🧘 Pressure relief

Ref. 636 – Double Gel Lined Heel Pad for Heel Spurs

Surface: Soft and comfortable textile lining.
Protection: Heel protection and impact cushioning.
Base: Soft and shock-absorbing gel.

Sizes: S, M, L

Properties:

- 👣 Comfort
- 🛡️ Shock absorption
- 🛡️ Heel protection
- 🚫 Non-slip

Ref. 639 – Elastic Band with Gel Pad

Surface: Soft, adaptable elastic fabric.
Protection: Metatarsal protection against excessive pressure.
Base: Cushioning gel in the metatarsal area.

Sizes: S, L

Properties:

- 👣 Comfort
- 🛡️ Metatarsal protection
- 🔄 Elastic fit

GEL RANGE

Ref. 640 – Adhesive Pad for Slave-Style Sandals

Surface: Soft and comfortable digital gel.
Protection: Metatarsal protection.
Base: Secure adhesive, maintains a secure fit in sandals.

Sizes: One size

Properties:

- 👉 Comfort
- 🛡️ Metatarsal protection
- 🚫 Non-slip

Ref. 669 – Siftal Long Insoles

Surface: Flexible, soft, and comfortable silicone.
Protection: Metatarsal and heel protection.
Base: Dual-density, shock-absorbing, and adaptive silicone.

Sizes: 35–36 to 45–46

Properties:

- 👉 Comfort
- 🛡️ Metatarsal and heel protection
- 🔄 Flexible
- 🚫 Non-slip

Ref. 606 – Gel Mini Insoles

Surface: Soft, adaptable gel.
Protection: Relief from excessive pressure in the metatarsal area.
Base: Adhesive, non-slip, and flexible gel.

Sizes: One Size

Properties:

- 👉 Comfort
- 🛡️ Metatarsal protection
- 🚫 Non-slip

Ref. 652 – Lined Gel Insoles

Surface: Synthetic leather (genuine leather option available), soft and comfortable.
Protection: Metatarsal and heel protection.
Base: Cushioning gel with metatarsal and heel support.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Metatarsal and heel protection
- 🔄 Flexible
- 🚫 Non-slip

GEL RANGE

Ref. 664 – Elastic Bunion Protector

Surface: Soft, elastic, and adaptable fabric.
Protection: Hallux valgus protection.
Base: Cushioning gel in the bunion area.

Sizes: One size

Properties:

- 👉 Comfort
- 🛡️ Hallux valgus protection
- 🔄 Flexible

Ref. 663 – Gel Mouse with Ring

Surface: Flexible, soft, and adaptable gel.
Protection: Interdigital protection.
Base: Technical, shock-absorbing, and protective gel.

Sizes: S, M, L (right or left)

Properties:

- 👉 Comfort
- 🛡️ Interdigital protection
- 🔄 Flexible

Ref. 654 – Gel Crescent Separator

Surface: Flexible, soft, and comfortable gel.
Protection: Interdigital protection.
Base: Technical, shock-absorbing, and protective gel.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Interdigital protection
- 🔄 Flexible

Ref. 665 – Digital Ring with Gel

Surface: Flexible, soft, and adaptable gel.
Protection: Interdigital protection.
Base: Cushioning gel, protects the interdigital area.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Interdigital protection
- 🔄 Flexible

Ref. 645 – Gel Spool Separator

Surface: Flexible, soft, and comfortable gel.
Protection: Interdigital protection.
Base: Technical, shock-absorbing, and protective gel.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Interdigital protection
- 🔄 Flexible

GEL RANGE

Ref. 667 – Flat Silicone Heel Pad with Insert

Surface: Flexible and comfortable silicone.
Protection: Heel protection.
Base: Variable hardness insert, shock absorber and heel protector.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Heel protection
- 🔄 Flexible
- 🚫 Non-slip

Ref. 678 – Cuttable Elastic Tube with Gel

Surface: Flexible, soft, and adaptable gel.
Protection: Interdigital protection.
Base: Cuttable elastic tube, shock absorber, and interdigital protector.

Sizes: S, L

Properties:

- 👉 Comfort
- 🛡️ Interdigital protection
- 🔄 Flexible
- ✂️ Trimmable

Ref. 668 – Silicone Heel Pad with Cup and Central Spur Insert

Surface: Flexible and comfortable silicone.
Protection: Heel protection.
Base: Variable hardness insert in the spur area, shock absorber and heel protector.

Sizes: S, M, L

Properties:

- 👉 Comfort
- 🛡️ Heel protection
- 🔄 Flexible
- 🚫 Non-slip

Ref. 670 – Silicone Insoles

Surface: Flexible and comfortable silicone.
Protection: Metatarsal protection.
Base: Shock-absorbing silicone, absorbs impacts and pressure.

Sizes: S, L

Properties:

- 👉 Comfort
- 🛡️ Metatarsal and heel protection
- 🔄 Flexible
- 🚫 Non-slip

KIDS RANGE

Ref. 115 CF – Kids Insole with Absorbent Layer

Surface: Soft and cool terry cloth.
Base: High-density, non-slip, and shock-absorbing SBR foam.

Sizes: 21–36

Properties:

-  Cool
-  Cushioning
-  Non-slip

Ref. 106 RC DE N – Kids Breathable Insole with Activated Carbon

Surface: Soft, absorbent and comfortable terry cloth.
Base: High-density, breathable and shock-absorbing SBR foam.

Sizes: Trimmable.

Properties:

- 🛡️ Insulation

Ref. 98 – Thermic Insole

Surface: Warm and comfortable thermal felt.
Protection: Thermal insulation and non-slip.
Base: Breathable SBR foam for cushioning and durability.

Sizes: 34–47

Properties:

- 🔥 Thermal
- 👣 Comfort
- 🛡️ Insulation
- 🛑 Non-slip

Ref. 168 – Aluminum Hexagon Insole

Surface: Breathable, soft and comfortable polyester.
Protection: Aluminum sheet with high thermal insulation power.
Base: High-density, perforated, shock-absorbing and ventilated non-slip SBR foam.

Sizes: 35–46

- 🔥 Thermal
- 🛡️ Insulating
- 🌬️ Breathable
- 👣 Comfortable

THERMIC RANGE

Ref. 215 – Merino Wool Square Insole

Surface: 100% natural wool, warm and insulating.
Protection: Natural thermal insulation against the cold.
Base: Two-tone SBR foam, non-slip, shock-absorbing and with high adhesion.

Sizes: 35–46

- 🔥 Thermal
- 👣 Comfort
- 🛡️ Stability
- 🚫 Non-slip

Ref. 216 – Polar Bubble Insole

Surface: Warm and comfortable fleece fabric.
Protection: Thermal insulation against the cold.
Base: Thermally insulating aluminum with air bubble chamber.

Sizes: 35–46

- Properties:
- 🔥 Thermal
 - 🔥 Heat retention
 - 🛡️ Insulating
 - 👣 Comfort

ANATOMIC PU INSOLES

At Plantillas Rogelio Inés we manufacture removable insoles designed to improve the comfort and quality of footwear.

We work with a wide variety of materials such as polyurethane (PU) foams, microfibers, premium leathers, cork and technical fabrics, which allows us to adapt to each design and develop tailor-made solutions both technically and aesthetically.

The entire production process takes place in our own facilities, guaranteeing high quality control and the flexibility needed to adapt to the needs of each client.

Our proximity and experience allow us to offer an agile, efficient service focused on adding value to every project.
